GERMANY ON GUERNSEY

Foreign Office Gives Out Statement
Situation in Morocco.

FRANCE AND SPAIN WATCHED

Allies Are Not Expected to Stop Civil War in Africa.

MERCHANTS CLAIM DAMAGES

Allegation Made that French Provoked Moors to Hostilities.

PREMIER CLEMENCEAU TALKS

Head of French Government Says Neither Sultan Will Make War on France and Native Are Calm.

BERLIN, Sept. 5.—Foreign Secretary Tschirky, in conversation with representatives of the powers has stated that Germany accepted fully the French assurances that the operations of the allied forces in Morocco would be within the terms of the Algeciras convention. He has casually added, in substance, that of course the Algeciras convention did not contemplate France and Spain undertaking to suppress a civil war in Morocco. This reservation shows that any extensive military operations on the part of the allies must either arouse controversy or be preceded by the consent of the interested powers.

The British government seems to be waiting to see what Germany will do, and Germany, the Associated Press is informed, is determined to prevent the "Expropriation of Morocco."

Herr Tschirky today received three leading German merchants of Casablanca, who filed claims for compensation for the needless destruction by the French, as they affirm, of German property at Casablanca. These merchants expressed their opinion that the action of the French was hasty and provocative, and that probably no fighting would have occurred had the French been then been at Casablanca.

French Premier Talks.

PARIS, Sept. 5.—Premier Clemenceau this afternoon issued a note which said: "No news has been received from Casablanca since yesterday. The situation at Mariana is normal. No decision has been received with reference to the rifles and ammunition stored there, but we have reasons to believe that neither sultan intends to make war against France. Advice from Tangier say that the natives remain calm. The representative of the French government reports that the fears of the European colony there are unfounded. The exodus from that port, however, continues."

MADEIRA, Sept. 5.—The ministry of marine announced today that a squadron of Spanish warships would be sent to Cadiz in order to be near Morocco and to prepare for possible eventualities.

WAREHOUSES MAY BE BURNED

Blaze Started by Strikers at Antwerp Threatens to Do Heavy Damage.

ANTWERP, Sept. 5.—The fire which was started in a lumber yard last night by rioters necessitating calling out the troops to assist the firemen in fighting the flames, is still burning this morning, threatening the destruction of the lumber and warehouse district of the city. Help has been summoned from Brussels and Ghent.

With the assistance of firemen from other cities the fire was under control at midday, but only after a desperate effort upon the part of the firemen, police and citizens. The loss is estimated at \$1,000,000.

The maritime federation has rejected the labor minister's proposal to arbitrate the dispute between the shipping companies and no disorder occurred today.

NO EFFORT TO ASSASSINATE

Reported Attempt to Kill Emperor Francis Joseph is Without Truth.

VIENNA, Sept. 5.—It is officially stated that there is no truth in the reports of the attempted assassination of Emperor Francis Joseph. An old peasant carrying a cane attempted to approach the emperor for the purpose of presenting a petition which led to some confusion and the circulation of the rumor that an attempt had been made on the life of his majesty.

Private information on the subject corroborates the official statement that no attempt was made to assassinate the emperor.

FEARS NO MORE OUTBREAKS

Secretary of Japanese Bureau Feels Assured of Settlement in San Francisco.

HONOLULU, Sept. 5.—K. H. Ishii, secretary of the bureau of the Japanese Foreign office, who is now in the United States as a special commissioner of his government, has written to Consul Saito saying that he believes there will be no further outbreaks of anti-Japanese sentiment in San Francisco. He adds that he hopes to succeed in amicably adjusting the present difficulties.

BONAPARTE WILL NOT TALK

Received Word from Former District Attorney Sims on Alton Case, but is Silent.

LENOIR, N.C., Sept. 5.—Attorney General Bonaparte, who has been spending the summer here, left today for Boston. To a representative of the Associated Press he said he had nothing to say regarding the Chicago & Alton case beyond his statement of last night. He said he had received a letter today from District Attorney Sims of Chicago, but he was not willing to make its contents public at this time, nor was he willing to make public the text of the letter he had written to Mr. Sims, and which it was expected would be read at the opening of the Chicago & Alton case in Chicago last Tuesday.

BORAH'S TRIAL IS FIXED

Former Idaho Senator Will Appear Before Court on September 27.

BOISE, Idaho, Sept. 5.—The date of the beginning of United States Senator Borah's trial is September 27. He is charged with conspiring to defraud the federal government by securing illegal entries of timber lands.

SUMMARY OF THE BEE
